

## Roster of Astronomy Departments with Enrollment and Degree Data, 2025

Results from the 2025 Survey of Enrollments and Degrees  
Patrick J. Mulvey and Starr Nicholson

In the 2024–25 academic year, U.S. institutions awarded a record 1,065 astronomy bachelor's degrees. This continues a 16-year trend of growth, resulting in an over 200% increase since 2008–09. (see figure on page 7).

U.S. institutions awarded 201 astronomy PhDs in the 2024–25 academic year, unchanged from the previous year (see Figure on page 7). These totals do not include astrophysics PhDs awarded by physics departments that do not offer an astronomy degree; those degrees are included in the Roster of Physics Departments.

| Total Astronomy Degrees<br>Academic Year 2024-2025 |       |
|----------------------------------------------------|-------|
| Bachelors                                          | 1,065 |
| Exiting Masters                                    | 49    |
| PhDs                                               | 201   |

| Total Astronomy Enrollments<br>Fall 2025 |       |
|------------------------------------------|-------|
| Juniors                                  | 1,300 |
| Seniors                                  | 1,873 |
| 1st Year Grad                            | 275   |
| Total Grad                               | 1,568 |

| Number of Departments<br>by Highest Degree Offered<br>Academic Year 2024-2025 |    |
|-------------------------------------------------------------------------------|----|
| Bachelors                                                                     | 43 |
| Masters                                                                       | 5  |
| PhD                                                                           | 44 |
| Total Departments                                                             | 92 |

This roster contains detailed data from the annual Survey of Enrollments and Degrees. An Excel version of the roster is available on our website and includes the number of full-time-equivalent faculty at each department. The survey was conducted in fall 2025 and covers all degree-granting astronomy departments in the United States.

Of the 92 degree-granting astronomy departments, 37 are stand-alone astronomy departments and 55 are combined physics and astronomy departments. Eighty-six (93%) of the departments responded to this year's survey. The totals reported above and the graphics on page 7 include reported data from responding departments and estimated values for the 6 nonresponding departments.

| Trend in astronomy enrollments and degrees, academic years 2015-16 to 2025-26. |                             |                 |      |                                           |         |                                        |       |

## Notations used in this roster:

|                                            |                                                                                                                                                                                                                                                                             |
|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>m</i>                                   | Masters is the department's highest astronomy degree (N=5).                                                                                                                                                                                                                 |
| <i>p</i>                                   | PhD is the department's highest astronomy degree (N=44).                                                                                                                                                                                                                    |
| <i>s</i>                                   | The astronomy department is administered <u>separately</u> from the physics department (N=36).                                                                                                                                                                              |
| <i>c</i>                                   | This is a <u>combined</u> department, offering degrees in both astronomy and physics (N=56). Data concerning the physics portion of their program can be found in the "Roster of Physics Departments, 2025".                                                                |
| GRADUATE ONLY                              | Department has no undergraduate degree program in astronomy (N=13).                                                                                                                                                                                                         |
| FIRST YEAR                                 | This column includes graduate students who were new to the department in the fall of 2025 as well as students who entered the department in the previous winter, spring and summer.                                                                                         |
| EXITING MASTERS                            | This column reflects the number of students who left the department with a master's degree.                                                                                                                                                                                 |
| FIRST TERM INTRODUCTORY COURSE ENROLLMENTS | The introductory course enrollment totals listed for each department represent the number of students who took their first term of introductory level astronomy. Departments were instructed not to include enrollments for courses that were a continuation of a sequence. |
