

Opportunities for Ph.D. Physicists

AT GENERAL ELECTRIC'S MAJOR
APPLIANCE LABORATORIES, APPLIANCE
PARK, LOUISVILLE, KENTUCKY

Solid State Physicist

to study compound semi-conductors

Classical Physicists

to study dynamic systems, heat transfer, fluid flow, advance measurements of physical properties of materials, demonstrations of feasibility

SALARY OPEN

Contact E. F. Shell, Technical Personnel,
Bldg. 3, Room 110,

GENERAL ELECTRIC
APPLIANCE PARK, LOUISVILLE 1, KENTUCKY

UNUSUAL BUYS

• OPTICS
• SCIENCE
• MATH

D-STIX CONSTRUCTION KITS

Unique new tool for teachers of science, math. Colored wood sticks $\frac{1}{8}$ " thick and "easy-on" rubber joints $\frac{1}{8}$ " diam. fit together fast—help visualize and demonstrate scientific concepts. Work out geometric figures, molecular structures, physical principles of stress, mass, inertia, etc. "3-dimensional thinking" adds interest—speeds understanding. Durable Kits. Money-back guarantee.

Stock No. 70,209-K (233 pcs) \$3.00 Postpaid
Stock No. 70,210-K (370 pcs) \$5.00 Postpaid
Stock No. 70,211-K (452 pcs) \$7.00 Postpaid

GIANT MAGNETS! TERRIFIC BARGAINS!

War surplus—Alnico V type! Horseshoe shape. Tremendous lifting power. 5 lb. size. Dimensions:—A-3 $\frac{1}{4}$ "; B-2 $\frac{3}{4}$ "; C-4 $\frac{1}{4}$ "; D-1 $\frac{1}{4}$ "; E-1 $\frac{1}{4}$ "; F-2 $\frac{3}{8}$ ". Strength is about 2,000 Gauss. Will lift over 125 lbs.

Stock No. 70,183-K \$8.50 Postpaid

15 $\frac{3}{4}$ lb. size. Approximately 5,000-6,000 Gauss rating. Will lift over 250 lbs.
Stock No. 85,088-K \$22.50 F.O.B. Barrington, N. J.
(Shipping wt. 22 lbs.)

LOW-COST SCIENCE AND MATH LEARNING AND TEACHING AIDS

EDMUND SCIENTIFIC CO. is cooperating in the Science Teaching Program in High Schools and Colleges throughout America, by developing science and math teaching aids at low prices.

Write for FREE CATALOG "K" for items and prices:

FREE! Giant CATALOG of OPTICAL BUYS!

OVER 1,000 OPTICAL ITEMS. . . Many on-the-job helps . . . quality control aids. 128 pages—hundreds of illustrations. Many war surplus bargains! Imported instruments! Lenses, Prisms, Magnifiers, Telescopes, Satellite Scopes, Microscopes, Binoculars, etc. Optics for industry, research labs, experimenters, hobbyists. No obligation. Write for FREE Catalog K

EDMUND SCIENTIFIC CO., Barrington, N. J.

We hear that...

Robert A. Artman, formerly supervisor of applied physics in the Ford Motor Company's Scientific Laboratory, has been appointed professor of physics and chairman of the department at Bucknell University, Lewisburg, Pa. William S. Porter, from the Los Alamos Scientific Laboratory, has joined Bucknell as an assistant professor of physics.

The following have recently joined the staff of the Physics Department at Brookhaven National Laboratory, Upton, N. Y.: Winslow F. Baker, Arthur C. Damask, Loyal Durand, Edward Hart, Ottman Kistner, Robert B. Schwartz, and S. Steven Yamamoto.

Robert L. Becker, formerly of the University of Kentucky, and Robert L. Carovillano, from the University of Indiana, have joined the Department of Physics at Boston College, Chestnut Hill, Mass., as associate professor and assistant professor, respectively.

Elliot T. Benedikt has been named head of Astrodynamics, Astro Systems and Research Laboratories, at the Norair Division of Northrop Corporation in Hawthorne, Calif.

Recent additions to the Nuclear Physics Unit of Boeing Airplane Company's Aero-Space Division in Seattle, Wash., include John A. Blaylock and Gunning Butler, formerly of the Kirtland AFB Research Directorate, Richard J. Colchin from Purdue University, Zdenko F. Danes from the Gulf Research and Development Company, David L. Dye, formerly of the University of California's Radiological Laboratory, Wayland D. George, formerly with the California Research Corporation, and Carl G. Lilliequist from the Midwestern Universities Research Association.

Richard A. Bolz has been appointed director of research at Spectra Electronics Corporation, Mount Vernon, N. Y.

Adelphi College, Garden City, N. Y., has appointed Henry Brysk as associate professor, Bernard M. Jaffe as assistant professor, and Donald Albert as instructor in the Department of Physics.

Robert A. Charpie, assistant director of Oak Ridge National Laboratory and director of the ORNL Reactor Projects Division, has been appointed as secretary of the Atomic Energy Commission's General Advisory Committee. He succeeds Jane H. Hall of the Los Alamos Scientific Laboratory.

Royal E. Collins, formerly at the Humble Research Center, and David C. Rich, from the Pittsburgh Plate Glass Company, have joined the Department of Physics at the University of Houston, Texas.

Morton A. Fineman is currently on sabbatical leave from Providence College in Rhode Island and is working in the National Bureau of Standards Atomic Physics Section as a postdoctoral resident research associate.

Thomas E. Holland has been named vice president of Beckman & Whitley, San Carlos, Calif., and director of the firm's recently formed Research and Development Division.

Shu-Koo Kao has been appointed visiting assistant professor of physics and **Jack H. Waggoner** has been named assistant professor of physics in the University of California's Division of Physical Sciences in Riverside.

Stefan G. Kaufmann, a member of the Reactor Engineering Division at the Argonne National Laboratory, is currently filling a one-year appointment at the French Centre D'Etudes Nucleaires in Saclay as part of an informal personnel exchange program between the Argonne and Saclay establishments.

Minoru Kawano, formerly of the Electrotechnical Laboratory, Tokyo, Japan, has joined the staff of the New Mexico Institute of Mining and Technology as a postdoctoral research fellow. He will be associated with Marvin H. Wilkening, head of graduate studies at NMIMT, in the study of radon and natural radioactivity in the lower atmosphere.

Park H. Miller, Jr., has been appointed assistant director of General Atomic's John Jay Hopkins Laboratory for Pure and Applied Science in San Diego, Calif. He will continue as chairman of General Atomic's Experimental Physics Department.

Hilliard Roderick, who has been with the Controlled Thermonuclear Branch of the Atomic Energy Commission's Division of Research while on leave from his position as a senior physicist of the General Electric Company's Atomic Power Equipment Department, has left the AEC to accept a two-year assignment as deputy director of the Natural Sciences Department of the United Nations Educational, Scientific, and Cultural Organization (Unesco) Secretariat in Paris.

Ralph A. Sawyer, dean of the Horace H. Rackham School of Graduate Studies at the University of Michigan and chairman of the Governing Board of the American Institute of Physics, has in addition to his deanship been appointed vice president for research at the University. A member of Michigan's Department of Physics since 1919, he has been dean of the Graduate School since 1946. Since 1951 Dean Sawyer has also been director of the University's Phoenix Atomic Research Project.

Robert W. Terhune has been named to head the Solid State Physics Laboratory at the University of Michigan's Willow Run Laboratories, succeeding **Chilhiro Kikuchi**, who has been named professor of nuclear engineering at the University.

Gardiner L. Tucker has been appointed resident manager of the San Jose, Calif., research laboratory of the International Business Machines Corporation. **Arthur G. Anderson** has been appointed manager of physical science research at the laboratory. **William R. Heller**, formerly with the Shell Development Company, has joined the research staff at the IBM Yorktown (N. Y.) Research Center, and **Fausto G. Fumi** of the University of Pavia, Italy, has spent the past two months with the Yorktown staff in the Metallurgy Research Department.

Joseph W. Weinberg has been appointed associate professor and **Karl J. Casper** and **John M. Pearson** have been appointed instructors in the Department of Physics at Western Reserve University in Cleveland.

Health Physicists

Salary range \$5880 to \$12,555 per annum, moving expenses paid.

Atomic Energy Commission's Offices throughout the country. Positions are concerned with the Commission's expanding Inspection and Licensing Program involving regulation of licensees using by-product, source, or special nuclear materials; determination of compliance with AEC regulations and license terms; investigation of radiation incidents involving licensed material; obtaining and evaluating data regarding the organization, control, procedures, and safety of licensee's operations, with particular attention to health and safety aspects.

Considerable travel is required in Inspection positions, limited travel in Licensing positions.

Qualifications: Knowledge of the physical sciences equivalent to a BS degree, knowledge of the applications of radiation sufficient to evaluate the activities of licensees; experience in the handling and use of radioactive materials and detection instruments; knowledge of radiological safety practices, the ability to prepare factual technical reports.

Send résumé or Standard Form 57 to *Director, Organization and Personnel Division, U. S. Atomic Energy Commission*, at any of the following:

Albuquerque Operations Office

Post Office Box 5400
Albuquerque, New Mexico

Chicago Operations Office

Post Office Box 59
Lemont, Illinois
