

plasma physics

Research Programs at Hughes Research Laboratories

New means for generating and containing highly ionized dense plasmas—new processes to produce controlled fusion power—new concepts on the interaction of electro-magnetic waves with plasmas... These are some of the expanding projects pursued at Hughes Research Laboratories in the field of PLASMA PHYSICS. In Malibu, California, new facilities have been specifically designed for effective and rewarding research effort.

Openings exist in the field of PLASMA PLASTICS for SCIENTISTS and ENGINEERS at SENIOR and JUNIOR levels.

Inquiries regarding staff openings may be directed in confidence to

Calendar

Material for inclusion in the calendar and meeting sections should be received 6 weeks prior to the date of the issue in which it is to appear. Further information can be obtained by writing to the addresses indicated in parentheses.

March

- 21-22 Classical & Quantum Turbulence, British Phys. Soc. Conf., Oxford (Miss A. C. Stickland, 1 Lowther Gardens, London S. W. 7, England)
- 21-24 **American Physical Society**, Hotel Sheraton-Cadillac, Detroit, Mich. (K. K. Darrow, 538 W. 120 St., New York 27, N. Y.)
- 21-24 **APS Div. of Solid-State Physics**, Hotel Sheraton-Cadillac, Detroit, Mich. (E. Burstein, U. of Pa., Philadelphia 4, Pa.)
- 21-24 IRE Internat'l Convention, Waldorf-Astoria Hotel & NY Coliseum, NYC (Inst. of Radio Eng., 1 E. 79 St., New York 21, N. Y.)
- 22-24 **APS Div. of High-Polymer Physics**, Park-Shelton Hotel, Detroit, Mich. (T. L. Smith, Stanford Research Inst., Menlo Park, Calif.)
- 23-25 Optical Spectrometric Measurements of High Temperatures Symp., U. of Chicago (F. Brech, Labs for Applied Science, U. of Chicago, Chicago 37, Ill.)
- 24-25 IRE Human Factors in Electronics Symp., attendance limited, NYC (J. E. Karlin, Bell Telephone Labs, Murray Hill, N. J.)
- 24-26 Nat'l Academy of Sciences—Nat'l Research Council, ann. mtg., Washington, D. C. (NAS-NRC, 2101 Constitution Ave., Washington 25, D. C.)
- 26 **AAPT Northern Calif. & Southern Calif. Sections** joint mtg., Calif. State Polytechnic Col., San Luis Obispo (Barbara F. Canty, Sacramento State Col., Sacramento 19, Calif.)
- 29-2 Nat'l Science Teachers Assoc., ann. conv., Kansas City, Mo. (Beatrice M. Gudridge, Nat'l Education Assoc., 1201 16th St., N. W., Washington 6, D. C.)
- 30-31 Polymeric Progress, internat'l conf., Wm. Beveridge Hall, London U. (The Plastics Inst., 6 Mandeville Pl., London W. 1, England)

April

- 4-5 Solar Energy Symp., U. of Fla. (J. C. Reed, U. of Fla., Gainesville, Fla.)
- 4-8 6th Nuclear Congress, NY Coliseum, NYC (F. M. Howell, 29 W. 39 St., New York 18, N. Y.)
- 5-7 Naval Structural Mechanics, symp. spons'd by ONR & Brown U. at Brown U. (P. S. Symonds, Brown U., Providence 12, R. I.)
- 6-8 Solid-State Microwave Amplifiers Conf. spons'd by Radio Spectroscopy Group & British Inst. of Physics at U. of Nottingham (Sec'y, The Inst. of Physics, 47 Belgrave Sq., London S. W. 1, England)
- 6-8 Inst. of Environmental Sciences mtg. on Hyper-Environments—Space Frontier, Biltmore Hotel, Los Angeles (M. S. Christensen, 6251 Marita St., Long Beach 15, Calif.)
- 7-9 **Optical Society of America**, Hotel Statler, Washington, D. C. (Mary Warga, 1155 16th St., N.W., Washington 6, D. C.)

- 7-9 **APS Southeastern Sect.**, ORNL host, Gatlinburg, Tenn. (H. Carr, Ala. Polytechnic Inst., Auburn, Ala.)
- 9 **APS New England Section**, Worcester Polytechnic Inst., Worcester, Mass. (P. J. Bray, Brown U., Providence 12, R. I.)
- 11-12 Inter-Society Color Council, ann. mtg., Philadelphia Museum Col. of Art, Philadelphia, Pa. (R. M. Evans, Eastman Kodak Co., Bldg. 65, Rochester 4, N. Y.)
- 12 Physics Club of Chicago (Contemplative Experiments Using Satellites, by C. Hanize), Hamilton Hotel, Chicago (E. L. Bussell, W. M. Welch Mfg. Co., 1515 Sedgwick St., Chicago 10, Ill.)
- 18-20 Gas Chromatography Symp., Canisius Col. (H. A. Szymanski, Canisius Col., 2001 Main St., Buffalo 8, N. Y.)
- 19-21 Active Networks & Feedback Systems, internat'l symp., Engineering Societies Bldg., NYC (H. J. Carlin, Microwave Research Inst., 55 Johnson St., B'klyn 1, N. Y.)
- 19-22 Metallurgy of Plutonium, internat'l symp. incl. session on nuclear fuels, Grenoble (Soc. Française de Métallurgie, 25 rue de Clichy, Paris, France)
- 20-22 Electronic Conductivity in Organic Solids, conf. spons'd by OOR & ONR at OOR, Duke U. (M. Silver, OOR, Box CM, Duke Station, Durham, N. C.)
- 22-23 **APS New York State Section** mtg. on Radio Astronomy & Rocket Probe Studies, Colgate U., Hamilton (O. E. Miller, Bldg. 65, 1669 Lake Ave., Rochester 4, N. Y.)
- 22-23 **APS Ohio Section**, Antioch Col., Yellow Springs (L. E. Smith, Denison U., Granville, Ohio)
- 22-23 High-Temperature Resistance & Thermal Degradation of Polymers Symp., London (Soc. of Chem. Industry, 14 Belgrave Sq., London S. W. 1, England)
- 25-27 Nat'l Academy of Sciences, ann. mtg., Washington, D. C. (NAS, 2101 Constitution Ave., Washington 25, D. C.)
- 25-26 The Combustion Inst. Western States Sect. spring mtg. spons'd by Lockheed Aircraft Corp. in Palo Alto (A. L. Berlad, Convair, 5001 Kearney Villa Rd., San Diego 11, Calif.)
- 25-28 **American Physical Society**, Sheraton-Park Hotel, Washington, D. C. (K. K. Darrow, 538 W. 120 St., New York 27, N. Y.)
- 29-30 Thermonuclear Processes Conv., London (Institution of Electrical Eng., Savoy Pl., London W. C. 2, England)
- Easter Nuclear Physics, British Physical Soc. Conf., Liverpool U. (Miss A. C. Stickland, 1 Lowther Gardens, London S. W. 7, England)
- ? Celebration of Centenary of the Discovery of Applied Spectroscopy by Bunsen & Kirchhoff, Heidelberg (G. Scheibe, Marsbruckstr. 186, Dortmund-Atterbeck, Germany)

PHYSICS TODAY

1960

May

- 2-3 Reactions between Complex Nuclei, **APS** a sponsor, Gatlinburg (R. S. Livingston, Oak Ridge Nat'l Lab, Oak Ridge, Tenn.)
- 2-4 Semiconductor Symp. of Electrochem. Soc., LaSalle Hotel, Chicago, Ill. (N. B. Hannay, Bell Telephone Labs, Murray Hill, N. J.)
- 3-6 Fuel Element Fabrication with special Emphasis on Cladding Materials, Internat'l Atomic Energy Agency symp., Vienna (IAEA, 11 Kärntner Ring, Vienna 1, Austria)
- 9-12 Am. Rocket Soc., mtg. & astronomical exposition, Ambassador Hotel, Los Angeles, Calif. (R. L. Hohl, ARS, 500 Fifth Ave., New York 36, N. Y.)
- 17-18 Superconductive Techniques for Computing Systems Symp., spons'd by ONR Information Systems Branch in Dept. of Interior Auditorium, Washington, D. C. (Miss J. Leno, Code 430A, Office of Naval Research, Washington 25, D. C.)
- 25-26 Refractory Materials & Alloys, Metallurgical Soc. of AIME symp., McGregor Center, Wayne St. U. (C. L. Corey, Wayne St. U., Detroit 2, Mich.)
- 30-4 Reactivity of Solids, 4th Internat'l Symp. spons'd by IUPAP & IUPAC, Amsterdam (G. van Gijn, Technische Hogeschool, Eindhoven, Netherlands)
- 31-2 Frequency Control Symp. spons'd by US Army Signal Res. & Dev. Lab, Shelburne Hotel, Atlantic City (E. A. Gerber, US Army Signal R&D Lab, Fort Monmouth, N. J.)

June

- 1-3 ISA Instrumental Methods of Analysis Symp., Montreal, Canada (Instrument Soc. of America, 313 Sixth Ave., Pittsburgh 22, Pa.)
- 8-11 Canadian Assoc. of Physicists, ann. cong., Kingston, Ont. (G. D. Scott, U. of Toronto, Toronto, Ont., Canada)
- 9-11 Acoustical Society of America, Brown U. (R. B. Lindsay, Brown U., Providence 12, R. I.)
- 13-15 Nat'l Microscopy Symp. spons'd by McCrone Assoc., Del Prado Hotel, Chicago (W. C. McCrone Associates, 501 E. 32 St., Chicago 16, Ill.)
- 13-17 Molecular Structure & Spectroscopy Symp., Ohio State U. (R. A. Oetjen, Ohio State U., Columbus 10, Ohio)
- 13-18 Many Particle Problems, conf. spons'd by IUPAP & Dutch Physical Soc., by invitation, Utrecht (Inst. for Theor. Physics, Maliesingel 23, Utrecht, Netherlands)
- 14-18 Macromolecules, internat'l IUPAC symp., Moscow (V. A. Kargin, I Akademitscheki Proyezd No. 18, Moscow V-134, USSR)
- 15-17 American Physical Society, Sheraton-Mount Royal Hotel, Montreal, Canada (K. K. Darrow, 538 W. 120 St., New York 27, N. Y.)
- 15-17 1960 Heat Transfer & Fluid Mechanics Inst., Stanford U. (K. Karamcheti, Stanford U., Stanford, Calif.)
- 20-22 Atomic & Molecular Gas Beams Symp., by invitation, U. of Denver (G. Miller, Denver Research Inst., U. of Denver, Denver 10, Colo.)
- 21-30 Internat'l Nuclear Power Exhibition, Earls Court, London (Nuclear Power Exhib. Ltd., Francis House, Francis St., London S. W. 1, England)
- 22-24 Electronic Standards & Measurements Conf. spons'd by NBS, IRE, AIEE, at NBS Labs, Boulder, Colo. (H. Finke, Polytech. Res. & Dev. Co., 202 Tillary St., Brooklyn 1, N. Y.)

Scylla

Naval Research Lab's Condenser Battery

Tobe...
first with
condensers
for thermonucleonics

Columbus II

Of particular interest to the thousands of international visitors to the historic Geneva Atoms-For-Peace Conference, was the display of thermonuclear fusion research equipment which the U.S. Government set up. Significantly, several of these devices use Tobe low-inductance condensers. Three of the machines are shown here.

Even now — long after the conference — inquiries and orders are being received from every corner of the globe. The postmarks read like a roll call at the United Nations: Great Britain, Japan, Italy, U.S.S.R., France,

Brazil, The Netherlands, Sweden and many others.

Scientists and engineers of these countries are in perfect accord in their recognition of Tobe thermonuclear condensers.

We invite inquiries for a single energy storage capacitor or a complete energy storage system including capacitors, racks, interconnecting lines, protective devices and charging power supply. For further technical information or engineering aid, write to Cornell-Dubilier Electric Corp., Marketing Office, Norwood, Massachusetts.

New Gateway to Achievement in Astronautics and Aeronautics

Republic Aviation's *New* Research & Development Center

Engineers and scientists whose minds are challenged by unsolved problems across the entire spectrum of technologies concerned with space exploration and upper atmosphere flight, are invited to inquire about the exceptional facilities for both theoretical and experimental investigations provided by Republic's new Research and Development Center (scheduled to open Spring 1960).

Senior level openings exist in the following areas:

Space Electronics (*Guidance, Navigation, Communications*) / Hydromagnetics / Advanced Computer Technology / Applied Mathematics / Nuclear Power Packages / Space Environmental Studies (*Life Science*) / Celestial Mechanics / Hypersonics / Electronic Theory / Plasma Physics / Radiation Studies / Re-entry Techniques / Materials Research & Development / Fluid Mechanics

Please forward resumes to: Mr. George R. Hickman
Technical Employment Manager, Dept. 16C

REPUBLIC AVIATION

Farmingdale, Long Island, New York

POSITION OPEN

THERMOELECTRICS RESEARCH

Experienced metallurgist, metallurgical engineer, or physical chemist for research in the field of thermoelectrics on problems particularly related to power generation and cooling. Applicants should have MS or PhD plus experience and background in thermoelectric research. Send résumé to:

Mr. R. E. Flory, Dept. RL-1C
RCA Laboratories
Princeton, New Jersey

POSITIONS OPEN

Loyola University of Los Angeles continues to need a theoretical physicist for September 1960, interested in teaching upper division undergraduate courses as well as in private research. He should hold a Ph.D. from an American University. An experienced teacher with industrial as well as academic experience will be preferred. Address:

The Dean of the College of Arts & Sciences
Los Angeles 45, California

POSITION WANTED

EXPERIMENTAL PHYSICIST—Female, B.Sc. and M.Sc. degrees—Excellent scholastic record, seeking challenging position in solid state physics but will also consider Nuclear field. Academic background in both Physics and Chemistry—Location between N. Y. vicinity and Philadelphia preferred—Write Miss Harriet Corbett, Box 7, Wyncote, Pa.

New Current Integrator

*A Versatile Tool for the
Scientist and
Process Control Engineer*

ELDORADO's Model CI-110 Current Integrator measures the instantaneous value of an input current (or voltage) and simultaneously integrates this input with respect to time. Featuring high accuracy, the unit includes a relay to actuate external controls when a pre-determined charge level is reached. Drift is negligible.

APPLICATIONS—Any physical parameter which can be converted to an electrical current can be measured and totaled with respect to time. Applications include: measuring beam current and total charge of a particle accelerator beam; control exposure in photographic processing to eliminate the effect of brightness changes; to accurately deposit a given thickness in electroplating; to make precision measurements of magnetic flux; to replace chemical coulometry; and in other comparable fields.

KEY SPECIFICATIONS

CURRENT RANGE	3×10^{-9} to 10^{-3} amperes dc
INTEGRATING CAPACITY	Up to 50 coulombs
ACCURACY	$\pm 0.2\%$ (current) $\pm 0.8\%$ (charge)
INTEGRATION TIME	Up to 16 hours for rated accuracy

For more details, write for technical bulletin. Please address Dept. 87.

1960

23-25 American Association of Physics Teachers, Oberlin Col., Oberlin, Ohio (F. Verbrugge, U. of Minnesota, Minneapolis 14, Minn.)

26-1 Mass Spectrometry, ann. mtg., sponsored by ATSM Comm. E-14, Atlantic City, N. J. (V. H. Dibeler, Nat'l Bureau of Standards, Washington 25, D. C.)

27-29 Military Electronics Convention sponsored by IRE Prof. Group on Military Electronics, Sheraton-Park Hotel, Washington, D. C. (C. De Vore, 3224 16th St., N.W., Washington 10, D. C.)

ATOMIC PERSONNEL, INC.

An Employment Agency for the Nuclear Field
1518 Walnut St. Phila. 2, Pa.

Theoretical Physicist

An appointment will be made to the rank of Associate Professor or Assistant Professor, depending on qualifications. The present salary scale in these ranks is \$6600 to \$10,700. Principal duties will be to teach courses at the senior and postgraduate levels and to carry on research. Preference will be given to a candidate whose experience and main interest lie in the field of nuclear theory.

Write to: Head, Department of Mathematical Physics, University of Manitoba, Winnipeg, Canada.

HIGH POLYMERS
ALSO HAVE A SOLID-STATE

Have you considered the possibility of applying your background in solid-state physics to the rapidly expanding field of synthetic polymers? Commercial exploitation of these materials has far outstepped the understanding of their basic nature. Many techniques which are commonplace in solid-state physics and metallurgy have not yet been considered in studying the structure and behavior of synthetic high polymers.

The Basic Research Department of the Chemstrand Research Center is seeking several high polymer or solid-state physicists willing to become interested in the solid-state structure and mechanical properties of synthetic high polymers and fibers.

Several attractive positions are available with unusual opportunity for freedom for creative basic research, advancement with or without administrative duties and association with a young and vigorous company in a growing industry.

The Chemstrand Research Center now in Decatur, Alabama, will relocate in late 1960 to new, modern well-equipped laboratories in the Research Triangle Park of North Carolina. Attractive professional, educational, cultural, recreational and residential facilities are available in this location in the Raleigh-Durham-Chapel Hill area.

Representatives of the Chemstrand Research Center (a wholly-owned subsidiary of The Chemstrand Corporation) will be attending the American Physical Society meeting in Detroit, Michigan, March 20-24. For local interview call Mr. R. H. Helle, Sheraton-Cadillac Hotel, Detroit, Michigan, or send resume to

- 13-15 Optical Society of America, Somerset Hotel, Boston, Mass. (Mary Waga, 1155 16th St., N.W., Washington 6, D. C.)

MICROWAVE ENGINEERS...

There Are Opportunities
"Across the Board" ... at
Westinghouse-Baltimore

Engineers interested in applying their skills to this rapidly expanding field, will find opportunities in the comprehensive programs at Westinghouse. Westinghouse-Baltimore engineers are engaged in every phase of microwave design and development from components to the largest scale systems on the boards today. These diversified programs have created career opportunities for seasoned microwave experts and beginners alike.

Current Opportunities include:

- Ⓢ Microwave Theory
- Ⓢ Microwave Components
- Ⓢ Receiver Design
- Ⓢ Antennas
- Ⓢ Transmitter Design
- Ⓢ Automated Test
- Ⓢ Systems Planning & Design
- Ⓢ Field Installation & Test

Send resume to: Mr. A. M. Johnston, Dept. 257

Theoretical Solid State Physicist

Battelle is currently in the process of expanding and augmenting its activities in the area of solid state physics. The initial phase of this expansion will be the addition of ten to twelve men to the existing theoretical group. This will be accompanied by expansion of associated experimental activities.

The personnel of the group will have several functions. At least half of each man's time will be devoted to fundamental research in his own field, supported in a large measure by Institute funds. The remainder of his time will be devoted to assistance to other divisions of the Institute in applied research programs in the area of his specialization.

It is planned to add as soon as possible two men whose qualifications include a Ph.D. degree in theoretical physics. One of these men should primarily be interested in imperfections in solids while the other should have research interests in the electronic structure of metals. These specific needs arise, of course, out of Battelle's extensive interests in the property and structure of metals. Future needs will be of the same general nature although as the group grows, other facets of solid state theory will be encompassed.
