

APPLIED MECHANICS

Position open with small consulting firm to do theoretical work primarily in structural mechanics, with emphasis on vibration problems. Inquiries are invited from engineers on doctoral level in applied mechanics, or in acoustics with applied mechanics background. Firm is engaged in research and design related to underwater sound, industrial ultrasonics, and instrumentation problems.

those schools which will also offer programs for college teachers are indicated by asterisks.

Arizona State University, Tempe, Ariz. (Dr. E. E. Snyder, Department of General Physical Sciences)
University of Colorado,* Boulder, Colo. (Dr. J. M. Cleveland, Department of Physics)
University of Georgia, Athens, Ga. (Dr. J. J. Westfall, Department of Botany)
University of Hawaii, Honolulu 14, Hawaii (Dr. M. M. Frodyma, Department of Chemistry)
Iowa State Teachers College, Cedar Falls, Iowa (Dr. R. A. Rogers, Department of Science)
Harvard University,* Cambridge 38, Mass. (Dr. V. Guillemin, Jr., Department of Physics)
University of Michigan, Ann Arbor, Mich. (Dr. L. C. Anderson, Department of Chemistry)
University of Mississippi, University, Miss. (Dr. N. A. Childress, Department of Mathematics)
Washington University,* St. Louis 30, Mo. (Prof. E. U. Condon, Department of Physics)
New Mexico Highlands University, Las Vegas, N. M. (Dr. E. G. Meyer, Department of Chemistry)
University of New Mexico, Albuquerque, N. M. (Dr. W. H. Ivins, Department of Secondary Education)
Cornell University, Ithaca, N. Y. (Dr. D. Boynton, Dean of the Graduate School)
Syracuse University, Syracuse 10, N. Y. (Dr. A. T. Collette, Department of Bacteriology and Botany)
University of North Carolina, Chapel Hill, N. C. (Dr. E. C. Markham, Department of Chemistry)
Ohio State University,* Columbus 10, Ohio (Dr. J. S. Richardson, Department of Science Education)
Oregon State College, Corvallis, Ore. (Dr. S. E. Williamson, Department of Science Education)
Temple University, Philadelphia 22, Pa. (Prof. E. L. Offenbacher, Department of Physics)
University of Pennsylvania, Philadelphia 4, Pa. (Prof. J. F. Hazel, Department of Chemistry)
Brown University, Providence 12, R. I. (Prof. E. R. Smith, Department of Education)
State University of South Dakota, Vermillion, S. D. (Prof. C. M. Vaughn, Department of Zoology)
University of Texas, Austin 12, Tex. (Dr. R. N. Little, Department of Physics)
University of Utah, Salt Lake City 12, Utah (Dr. T. J. Farnley, Department of Physics)
University of Virginia, Charlottesville, Va. (Dr. James W. Cole, Jr., Department of Chemistry)
University of Wisconsin, Madison 6, Wis. (Dr. D. E. Bucklin, Department of Zoology)

A March 1 deadline has been set for the receipt of proposals for participation in NSF's Graduate Laboratory Development Program. Proposals received after that time will be reviewed following the next closing date, which is September 1.

Grants awarded under the program are intended to aid institutions of higher education in modernizing, renovating, or expanding graduate-level basic research laboratories used by staff members and graduate students. The program requires at least fifty percent participation by the institution with funds derived from nonfederal sources, and only those departments having a graduate program leading to the doctoral degree in science at the time the proposal is submitted are eligible to take part.

Proposals, as well as requests for additional information, should be addressed to the Office of Institutional Programs, National Science Foundation, Washington 25, D. C.

The National Research Council of Canada has announced that its support for research at Canadian universities in 1959-60 reached a record total of \$9.37 million, representing an increase of \$2.62 million over the previous academic year. Research grants to university staff members amounted to nearly 80 percent, 450 scholarships and fellowships for graduate students
