

WE HEAR THAT . . .

George L. Trigg, former assistant editor of *Physical Review Letters*, has been appointed an editor of *PRL*. **A. W. K. Metzner** is on leave from his post of assistant professor of physics at San Diego State College, serving as an acting editor of *The Physical Review*.

A. G. W. Cameron, who was senior scientist at NASA's institute for space studies since 1961, has been named professor of space physics in the Belfer graduate school of science at Yeshiva University.

CAMERON

Ivan S. Zheludev, head of the laboratory of electrical properties of crystals at the institute of crystallography of the Academy of Sciences in Moscow, has been appointed deputy director general of the International Atomic Energy Agency for the department of technical operations.

Morton A. Fineman, currently senior research staff member at General Atomic, has been appointed chairman of the physics department at Lycoming College.

Pierre Jacquinot, director general of the French National Center of Scientific Research, has strengthened the center's administrative staff. He will now be assisted by an administrative and financial director and by a group of scientific directors including **Hubert Curien**, professor in the faculty of sciences at Paris, and **Georges Jobert**, physicist in the institute of earth physics at Paris.

William N. Ellis, former associate program director, atomic and molecular physics program, National Science Foundation, has been named science and technology officer, office of regional development, Department of Commerce.

John A. Wheeler of Princeton University has been appointed to Princeton's

Joseph Henry Professorship of Physics, succeeding **Henry D. Smyth**, now serving as US ambassador to the IAEA in Vienna.

K. M. Thomas, formerly associate to the Rensselaer Professor at Rensselaer Polytechnic Institute, has been appointed professor and head of the physics department in Jackson State College, Mississippi.

Henry E. Duckworth of the University of Manitoba in Winnipeg has been named Manitoba's academic vice president.

Anthony Liuzzi, formerly with the New York University department of environmental medicine, has been named assistant professor of radiological physics at Yale University.

Melvin Ferentz resigned in January 1966 as professor and chairman of the physics department at St. John's University. He spent the spring semester as visiting professor at New York University and has now joined the faculty of the City University of New York as professor of physics at Brooklyn College.

Arthur Schawlow has succeeded **Leonard I. Schiff** as head of the Stanford University physics department. Schawlow, co-inventor of the laser, is also well known for his work in nuclear quadrupole resonance and superconductivity. Schiff, who served as department head at Stanford for 18 years and is recognized for his many contributions to physics teaching, will continue his teaching and research.

Rolf G. Winter has been named chairman of the physics department at the

College of William and Mary, succeeding **Melvin A. Pittman** who continues in the department as professor.

William Markowitz has retired as director, time service division, of the US Naval Observatory, which he joined in 1936, and will become professor of physics at Marquette University.

MARKOWITZ

Truman G. Blocker of the University of Pennsylvania, **David L. Carter** of the Ecole Normale Supérieure in Paris, **Michael A. Kinch** of the Clarendon Laboratory at Oxford, **Esther Krikorian** of General Dynamics, and **Warner C. Scott** of Stanford University have joined the physics research laboratory of Texas Instruments. **E. Hal Bogardus** of Cornell University and **H. Barry Bebb** of the University of Rochester Institute of Optics have been named to the staff of the Texas Instruments materials science research laboratory. **Robert L. Williams** of Simtec, Ltd., has joined the company's advanced components research laboratory.

Elmer E. Anderson, former research physicist and chief of the electro-magnetics division of the Naval Ordnance Laboratory, has been appointed chairman of the physics department at Clarkson College of Technology.

David W. Hafemeister of the University of Illinois and **George H. Renninger** of Carnegie Institute of Technology have been named assistant professors of physics at Carnegie Tech.

Morris E. Fine, professor in the department of materials science at Northwestern University's technological institute, has been named chairman of the University's Institute of Metals.

Hsin-Yang Yeh of the Dublin Institute of Advanced Studies and **Walter G. Wesley** of the University of North Carolina have joined the physics department of Moorhead State College in Minnesota. □
