

Reminder: Store-front physics contest

Don't miss your chance to win \$200 and an invitation to present a paper at the Anaheim meeting, 29 January–1 February 1975. The details of the store-front physics competition appeared in the August issue of *PHYSICS TODAY* and in the August–September issue of the *Bulletin*. Members of the Committee on Science Education for the General Public will judge the entries. Each exhibit must present information about physics or physicists to people who unexpectedly encounter it. (This committee was incorrectly identified as an APS committee in last month's article; the committee established by the American Association of Physics Teachers now draws its membership from both AAPT & APS.)

appropriate places in both the first and 15th-of-the-month editions of *Physical Review B*. These changes are designed to eliminate some anomalies in the subject-matter distribution between *Physical Review A* and *Physical Review B*.

in brief

Correspondence for the division of high-polymer physics should be sent to John Lauritzen, National Bureau of Standards, Washington, D.C. 20234. Fraser Price (University of Massachusetts), divisional councillor, will be on sabbatical leave until August 1975. □
