Contribute your film to the AAPT contest

The American Association of Physics Teachers is sponsoring a film competition to stimulate production of short (four minutes or less) single-concept physics films in regular or super-8 mm format. The competition will be held in February during AAPT's joint annual meeting with the American Physical Society in New York City. The competition is open to physics students and teachers who have not produced films for commercial distribution.

Content and concept will be the primary judging criteria; photographic expertise is secondary, and films submitted by students will be evaluated separately from those of teachers. Entries (no more than three per contestant) must be postmarked by 21 November. Cash awards for winning films are expected but not yet confirmed. For entry forms and further information, contact John Dowling Jr, FCV Coordinator, Dept of Environment and Applied Physics, Mansfield State College, Mansfield, Pa. 16933.

Leroy Humphries reelected as head of SPS council

The Society of Physics Students has elected Leroy J. Humphries to a second two-year term as chairman of its National Council and has also elected four Councillors and twelve student Associate Councillors. Humphries is now with the physics department at M.D. Anderson Tumor Institute in Houston, Texas and has held various offices in SPS and Sigma Pi Sigma chapters there and at Sam Houston State University and the University of Arkansas.

Elected to three-year Council terms were Peggy A. Dixon of Montgomery College, Takoma Park, Md.; R. Charles Ivey of Abilene Christian College, Abilene, Tex.; Camille Minichino of Emmanuel College, Boston, Mass. and G. William Reynolds of the State University of N.Y. at Albany.

Students elected to one-year terms as Associate Councillors are Elizabeth E. Chain of Northern Ill. University, Dekalb; Mary Jane Hewitt of Creighton University, Omaha, Nebraska; Stephen M. Harris of Northern Ariz. University, Flagstaff; Philip Hudson of Midwestern University, Wichita Falls, Tex.; Albert H. Jeans of Johns Hopkins University, Baltimore, Md.; Ockle E. Johnson of Siena College, Loudonville, N.Y.; Stanley A. Jones of Ohio State University, Columbus; Glenn Lippman of Fla. Institute of Technology, Melbourne; D.

Hubert Lloyd of Cal. State University, Long Beach; Henry M. Sielski III of Moravian College, Bethlehem, Pa.; Andrei Szilagyi of Harvard University, Cambridge, Mass. and John A. Tompkins of Clemson University, Clemson, S.C.

Education council offers administration fellowships

Faculty and junior staff members at US colleges and universities have the opportunity to participate in a program geared to preparing them for positions in academic administration. The Academic Administration Internship Program is sponsored by the American Council on Education, whose 1400 member institutions may, through their presidents and chief academic officers, nominate candidates for internships. Forty persons will be selected for the 1976-77 class. The program consists of seminars and a nine-month internship that can be arranged at either the nominating or a host institution. On 2 September ACE will invite member institutions to participate in the program. Those wishing to do so must respond by 15 October. Nominations are due on 15 November; applications from individuals will not be accepted. For further information, contact Thomas M. Stauffer, ACE, One Dupont Circle, Washington, D.C. 20036.

American Nuclear Society elects Feldman and Boyer

Melvin J. Feldman has become president of the American Nuclear Society and Vincent S. Boyer has been elected vice-president/president-elect. Their one-year terms of office are scheduled to begin on 12 June.

FELDMAN

Feldman recently joined Holifield National Laboratory as program manager of engineering systems for the liquid metal fast breeder reactor fuel recycle program. He spent the last 15 years with the Argonne National Laboratory and was named manager of the Idaho fuel cycle facility in 1976 and associate director of Argonne-West division in 1973. Throughout his career, Feldman has been active in ANS technical divisions and national committees, and since 1973 he has been a member of the board of directors.

Boyer has been vice-president of the engineering and research department at the Philadelphia Electric Co since 1968. He joined the company in 1939 as an engineer working on plant tests in power station operations. He has served various ANS divisions and committees and was appointed to the board of directors in 1970.

NSF Fellowships

The National Science Foundation announces the following fellowships, subject to availability of funds. Those interested should write to Fellowship and Traineeship Section, NSF, Washington, D.C. 20550 and request the appropriate publications.

	Application closing dates	Award announcement	Pertinent publications
Graduate, academic year 1976-77	1 December 1975	15 March 1976	E 76-12
Energy-related postdoctoral	Early December 1975	Mid March 1976	E 76-37
NATO post-doctoral	27 October 1975	Late January 1976	E 76-13
NATO Senior (more than five years after PhD)	1 October 1975	Mid January 1976	E 76-14
