

# Calendar of events

- October 2-5 Technical Association of Pulp and Paper Industry Engineering Conference, Cincinnati, Ohio
- October 3 Society for Applied Spectroscopy, New York City
- October 3-5 American Institute of Electrical Engineers, Middle Eastern District, Baltimore, Maryland
- October 10-12 National Academy of Sciences, Schenectady, N. Y.
- October 11-14 American Society of Civil Engineers, Chicago, Illinois
- October 14 American Physical Society, Metropolitan Section, New York City
- October 16-20 Society of Motion Picture and Television Engineers, Lake Placid, New York
- October 18-19 Conference on Industrial Hydraulics (Sponsored by Armour Research Foundation), Chicago, Illinois
- October 19-21 Conference on Gaseous Electronics (Sponsored by Electron Physics Division, American Physical Society), New York City
- October 20 National Noise Abatement Symposium (Sponsored by NNA Council and Armour Research Foundation), Chicago, Illinois
- October 20-21 Pennsylvania Conference of College Physics Teachers, Haverford College and Franklin Institute, Philadelphia, Pennsylvania
- October 23-25 Conference on Applications of X-Ray Spectroscopy to Solid State Problems (Sponsored by Office of Naval Research and Wisconsin Alumni Research Foundation), Madison, Wisconsin
- October 23-25 American Institute of Electrical Engineers and Institute of Radio Engineers Joint Conference on Electronic Instrumentation in Nucleonics and Medicine, New York City
- October 23-27 American Institute of Electrical Engineers (General Meeting), Oklahoma City, Oklahoma
- October 23-27 American Society for Metals, Chicago, Illinois
- October 26-28 Optical Society of America, Cleveland, Ohio
- October 26-28 Audio Fair (Sponsored by Audio Engineering Society), New York City
- November 1-3 Conference on Electrical Insulation, Division of Engineering and Industrial Research (Sponsored by National Research Council), Pocono Manor, Pennsylvania
- November 3-4 Society of Rheology, New York City
- November 7 Society for Applied Spectroscopy, New York City
- November 9-11 Acoustical Society of America, Cambridge and Boston, Massachusetts
- November 16-18 Geological Society of America, Washington, D. C.
- November 20-24 Journées Internationales de l'Analyse et des Essais (sponsored by Société de Chimie Industrielle), Paris, France
- November 24-25 American Physical Society, Chicago, Illinois
- November 26-December 1 American Society of Mechanical Engineers, New York City
- November 27-29 American Standards Association, New York City
- November 30-December 1 Society of Exploration Geophysicists (Regional Exploration Meeting), Ft. Worth, Texas

*Physics Today*, a general interest magazine on physics, is published monthly by the American Institute of Physics, Incorporated, at Prince and Lemon Streets, Lancaster, Pennsylvania and is printed in the U. S. A.

Contributions (typed, double-spaced, and in duplicate) are invited. They should be addressed to the Editor and accompanied by return postage.

Editorial, Production, and Advertising Offices are at the American Institute of Physics, 57 East 55th Street, New York 22, New York.

Subscription rates—United States and Possessions, Canada, and Mexico: \$4.00 per year. Elsewhere: add \$1.00 per year for postage. Single copies: 50¢.

Change of address should be sent to the American Institute of Physics, 57 East 55th Street, New York 22, New York.

Statements and opinions expressed in *Physics Today* are those of individuals unless indicated as an official position of the Institute.

## RADIUM D AND POLONIUM FOR RESEARCH

### ALPHA SOURCES

Standard nickel electrode as illustrated. Threaded stem optional. Maximum active life assured by flash overcoat of gold. Special electrodes to your specifications.

### BETA SOURCES

Standard nickel electrode. Active surface protected by micro-thin aluminum foil, assuring a pure beta emitter. Special electrodes to your specifications.

### NEUTRON SOURCES

Feature extremely low gamma radiation. Highly compressed Beryllium mixtures in monel alloy or magnetic metal capsules. Standard ratio 1:10, activity of Radium D or Polonium to weight of Beryllium, can be varied to meet your requirements.

Radium D and Polonium also available as highly purified nitrate crystals, readily soluble in N/10 nitric acid. Quantity in millicuries as specified.

For prompt delivery of anything in radium or associated products:

**GAMMA RAY STANDARDS  
RADIUM NEUTRON SOURCES  
COBALT 60 OF HIGH SPECIFIC ACTIVITY**
