new books

Astronomy, cosmology and space physics

Calibration of Fundamental Stellar Quantities. *International Astronomical Union Symposium 111.* Proc. Symp., Como, Italy, May 1984. D. S. Hayes, L. E. Pasinetti, A. G. Davis Philip, eds. 644 pp. Reidel, Boston, 1985. \$69.50 hardcover; \$29.50 paper

High Resolution in Solar Physics. *Lecture Notes in Physics 233.* Proc. Spec. Session Int. Astron. Union, Toulouse, September 1984. R. Muller, ed. 320 pp. Springer-Verlag, New York, 1986. \$20.50

Methods in the Qualitative Theory of Dynamical Systems in Astrophysics and Gas Dynamics. O. I. Bogoyavlensky. 301 pp. Springer-Verlag, New York, 1985. \$49.00. *Monograph*

Nearby Molecular Clouds. *Lecture Notes in Physics 237.* Proc. Colloq. Int. Astron. Union, Toulouse, September 1984. G. Serra, ed. 242 pp. Springer-Verlag, New York, 1985. \$13.70

The Search for Extraterrestrial Life: Recent Developments. *International Astronomical Union Symposium 112.* Proc. Symp., Boston, June 1984. M. D. Papagianis, ed. 579 pp. Reidel, Boston, 1985. \$64.00 hardcover; \$29.50 paper

The Sun and Solar System Debris: A Catalog of Astronomical Anomalies. W. R. Corliss. 282 pp. The Sourcebook Project, Glen Arm, Md., 1986. \$17.95. *Catalog*

Atomic, molecular and chemical physics

High Resolution Spectral Atlas of Nitrogen Dioxide 559-597 nm. *Springer Series in Chemical Physics 41.* K. Uehara, H. Sada. 226 pp. Springer-Verlag, New York, 1985. \$37.00

Spectroscopy of Molecular Excitons. *Springer Series in Chemical Physics 16.* V. L. Broude, E. F. Sheka, E. I. Rashba. 271 pp. Springer-Verlag, New York, 1985. \$48.00. *Monograph*

Time-Resolved Vibrational Spectroscopy. *Springer Proceedings in Physics 4.* Proc. Conf., Bayreuth-Bischofsgrün, FRG, June 1985. A. Laubereau, M. Stockburger, eds. 302 pp. Springer-Verlag, New York, 1985. \$34.00

Geophysics and planetary science

Atmospheric Carbon Dioxide and the Global Carbon Cycle. J. R. Trabalka, ed.

VACUUM PACKED Balzers 50 L/S Turbopump

High performance in a small package. Balzers provides the economy and convenience of one-button operation, along with hydrocarbon-free high and ultrahigh vacuum. All in a compact, easy-to-operate, easy-to-maintain package.

Use the Model 050 without any high vacuum or roughing valves. No LN₂ and no backstreaming. If an air inrush accident occurs, simply restart the pump, without expensive oil clean-up or regeneration downtime.

Mount it horizontally or vertically. With its unique permanent-magnet bearing, the 050 is exceptionally reliable, smooth, and quiet. There's no long waiting

for start-up, either. Operation is fast, safe, and certain. Advanced drive and control electronics optimize long-term performance, and make full computer monitoring and interface possible.

The vacuum packed 050 and all of Balzers turbopumps, from 27 to 6500 L/S, are backed by our unique exchange program and three U.S. service centers. Call or write for details.
