FOR ALL MAGNETIC SHIELDING NEEDS

Amuneal has provided magnetic shielding solutions to the physics community for nearly 30 years

- Custom shielding for scientific instrumentation and systems
- Complete fabrication from specialized components to complex assemblies
- High permeability sheet and foil materials from stock
- In-house engineering, design, heat treat and test facilities

PHYSICS MANAGEMENT FELLOW

The American Institute of Physics (AIP) serves the sciences of physics and astronomy by serving its member societies, by serving individual scientists, and by serving students and the general public. This Fellowship is a post-doctoral position in the Office of the Executive Director of AIP. The appointment is for a renewable one-year term. The applicant should be a physical scientist interested in serving the physics community while gaining experience in administration and management. The Fellow will work as Assistant to the Director. He/she will be closely involved on a daily basis in supporting and extending the work of the Director, assisting the Director in special projects and interactions with the physics community. The Fellow must be a well-organized person with good writing skills and the ability to function under the pressure of multiple tasks and deadlines.

The Fellow will be based in the American Center for Physics in College Park, Maryland. The salary will be competitive and dependent on qualifications and experience. An allowance for relocation expenses at the beginning and end of the term will be provided.

Applications will be considered until the position is filled. To apply for this position, send a resume, the names of three references, and a letter detailing the basis of your interest to:
