

**B. James Bailey, Wilkison W. Meeks, and Carl A. Sterns** have joined the B. F. Goodrich Company Research Center in Brecksville, Ohio.

**Emil M. Banas** has joined the staff of the Whiting Research Laboratories of the Standard Oil Company (Indiana).

The following physicists have joined the staff of the University of Michigan's Willow Run Laboratories at Ypsilanti, Michigan: **Henry Brysk, David Edwards, Chihiro Kikuchi, Ralph Kleinman, Stanley Lieberman, David Moomaw, Leonard Porecello, Paul Silberg, and George Zissis.**

**C. N. Chou** of the University of Chicago and **Andrew Robeson** of Emory University have been appointed associate professors of physics at Virginia Polytechnic Institute, Blacksburg, and **Samuel Olanoff** of the University of Illinois has been appointed instructor.

**Franklin S. Cooper**, associate director of research at Haskins Laboratories Inc., New York City, has been elected to succeed Caryl P. Haskins as president and director of the Laboratories.

**George W. Crawford**, associate professor of physics at Clemson Agricultural College in South Carolina, has accepted a position as assistant director of the Texas Petroleum Research Committee in charge of the laboratory at the University of Texas at Austin.

**Walter G. Driscoll** has been appointed assistant director of research at Baird Associates, Inc., Cambridge, Massachusetts, where he will be in charge of the company's transistorized electronics department.

**Alfred B. Focke** has been named director of the Marine Physical Laboratory of the University of California's Scripps Institution of Oceanography, succeeding **Sir Charles S. Wright**, who has retired.

**J. E. Goldman**, former director of the Carnegie Institute of Technology Magnetism Research Laboratory, has joined Ford Motor Company's laboratory in Dearborn, Michigan, as manager of the physics department.

**Albert N. Guthrie** of the Brooklyn College Physics Department has been granted a special leave of absence through August 31, 1956, to continue as director of the Columbia University Hudson Laboratories for a second year.

**Marshall C. Harrington**, head of the physics department at Drew University, has resigned to take a research post in the hydromechanics laboratory of the Navy's David Taylor Model Basin, Carderock, Maryland.

**William J. Horvath** is a new staff member of the medical physics group of Airborne Instruments Laboratory, Mineola, N. Y.

**C. Robert Lagergren** has joined General Electric's Experimental Physics Unit, Engineering Department, at the Hanford atomic installation near Richland, Washington.

**Charles G. McIlwraith**, formerly of Texas Oil Company's Beacon Laboratories in New York, and **John B. Breazeale** of the University of Virginia have joined the applied physics staff at the Bill Jack Scientific Instrument Company, Solana Beach, California.

**Paul H. E. Meijer** has been appointed assistant professor of physics at the University of Delaware.

**Peter A. Moldauer** has been appointed instructor in theoretical physics at the University of Connecticut, Storrs.

**Robert G. Picard**, formerly manager of scientific instruments engineering for RCA, has joined Central Scientific Company in Chicago as director of research and engineering development.

**Henry S. Sack**, professor of engineering physics at Cornell, has been named Cornell Aeronautical Laboratory Professor for the coming year.

**Richard Schoen**, from the University of Southern California, has been appointed assistant professor of physics at the Missouri School of Mines and Metallurgy, Rolla, Michigan. **Charles E. Jones**, formerly of the University of Arkansas, has been appointed instructor.

**Harry Soodak**, assistant professor of physics at the College of the City of New York, has been named head of the reactor physics group of the Nuclear Development Corporation of America, White Plains, New York.

**Charles Süsskind** has resigned from his position at Stanford University to become assistant professor of electrical engineering at the University of California, Berkeley.

**Charles E. Teeter, Jr.**, formerly senior technical adviser to the AEC's Chicago Patent Division, has been named classification officer, Chicago Operations Office.

**Frederick E. Terman**, dean of Stanford University's School of Engineering, has been appointed provost of the University.

**Otto Theimer**, formerly of the University of British Columbia, and **Max Jammer**, of Hebrew University, Israel, have joined the University of Oklahoma physics department as visiting professors.

**Robert L. Walker**, associate professor of physics at California Institute of Technology, has received Guggenheim and Fulbright grants to conduct research in high-energy physics at the Universities of Rome and Padua in Italy and to visit other European physics laboratories.

**Alvin M. Weinberg** has been appointed director of Oak Ridge National Laboratory, effective October 1st. Dr. Weinberg has been with ORNL since 1945, first as director of the physics division and more recently as director of research. The Laboratory is operated for the AEC by Union Carbide Nuclear Company, a division of Union Carbide and Carbon Corporation.

**James E. White** has been appointed supervisor of the physics section of the Ohio Oil Company's Research Center, now under construction at Littleton, Colorado. For the past six years he has been in charge of geophysics research at the Dallas Field Research Laboratories of the Magnolia Petroleum Company.
