

AMERICAN INSTITUTE OF PHYSICS 25th ANNIVERSARY MEETING AND EXHIBIT

January 30 to February 4, 1956

Hotel New Yorker, NYC

Regular Winter Meeting of the
American Physical Society
Regular Winter Meeting of the
American Association of Physics Teachers
Special Meeting of the Optical Society of America
Special Meeting of the Acoust. Society of America
Special Silver Jubilee Session of the
American Institute of Physics
Other Society Functions and Meetings

Exhibitors:

Academic Press, Inc.
Addison-Wesley Publishing Company, Inc.
Allegany Instrument Company, Inc.
Barnes Engineering Company
Beta Electric Co.
Brailsford & Company, Inc.
Cambridge Instrument Company, Inc.
Cambridge University Press
Central Scientific Company
Federal Telephone & Radio Company
The Gaertner Scientific Company
General Electric Research Laboratory
General Radio Company
The Ealing Corporation
Instruments Publishing Company
Interscience Publishers, Inc.
The Jarrell-Ash Company
Kay Electric Company
Keithley Instruments
Walter Kidde Nuclear Laboratories, Inc.
J. Klinger
H. W. Leighton Laboratories
Arthur D. Little, Inc.
McGraw-Hill Book Company
National Radiac, Inc.
North American Aviation, Inc.
North American Philips Company, Inc.
NRD Instrument Company
Nuclear Development Associates
Opplum Company, Inc.
Optical Film Engineering Company
The Perkin-Elmer Corp.
Prentice-Hall, Inc.
R.M.C. Associates
Rubicon Company
Springer Publishing Company, Inc.
Tracerlab, Inc.
Vacuum Electronic Engineering Company
D. Van Nostrand Company, Inc.
W. M. Welch Manufacturing Company
John Wiley & Sons, Inc.

ASEE Mathematics Division

The Mathematics Division of the American Society for Engineering Education met on June 20-24, 1955, at Pennsylvania State University. Four well-attended sessions of the Division were held. The following new officers of the Division were elected at the annual business meeting: chairman, Haim Reingold, Illinois Institute of Technology; secretary, William E. Restemeyer, University of Cincinnati; director, Cletus O. Oakley, Haverford College. Richard S. Burington, Bureau of Ordnance, Navy Department, and Carroll V. Newsom, executive vice chancellor, New York University, will continue to serve as directors, and R. S. Burington was elected as council member of ASEE. The next annual meeting of the ASEE Mathematics Division will be held in June 1956 at Iowa State College. For further information write to Professor W. E. Restemeyer, University of Cincinnati.

Calorimetry

The tenth annual Calorimetry Conference is scheduled to meet in Minneapolis at the University of Minnesota, September 16-17. The purpose of the conference, as first founded and organized by the late Hugh M. Huffman, formerly director of thermodynamic research at the U. S. Bureau of Mines, is "to promote better calorimetry by informal discussion of mutual problems, by interchanging ideas, and by presentation of new experimental techniques of calorimetry". The conference will be devoted in part to such topics as very low temperature calorimetry, liquid helium calorimetry, high and low adiabatic calorimetry, measurements of stored energy in solids, high precision bomb calorimetry, measurements of heats of solutions and heats of precipitation both for liquid-solid and solid-solid temperatures, symbols and terminology, standard calorimetric samples, and promotion of better instrumentation and publication policies relevant to thermodynamics data. The chairman of the 1955 meeting is Warren DeSorbo (General Electric Co.) and the program chairman is Edgar F. Westrum, Jr. (University of Michigan). Members of the board of directors in addition to DeSorbo and Westrum are E. J. Prosen (National Bureau of Standards), J. W. Stout (University of Chicago), Guy Waddington (Bureau of Mines), and D. R. Stull (Dow Chemical Company).
