## **ROSTER OF PHYSICS DEPARTMENTS WITH ENROLLMENT AND DEGREE DATA, 2007.**

This roster contains detailed data from the annual Survey of Enrollments and Degrees. The survey was conducted in the fall of the 2007-08 academic year and includes all degree-granting physics departments in the United States. Presented in this roster are the data reported by those departments for their 2006-07 introductory course enrollments, 2006-07 degrees and their fall 2007 undergraduate major and graduate student enrollments.

The introductory course enrollment totals listed for each department represent the number of students who took their first term of introductory level physics, astronomy or physical science. Departments were instructed not to include enrollments for courses that were a continuation of a sequence.

Of the 763 degree-granting physics departments, 698 (91%) contributed to the data supplied in this year's roster. Data are not presented for departments who did not contribute to the study. Some departments only supplied partial data and consequently have an incomplete entry.

A separate publication, the "Roster of Astronomy Departments", includes a listing of the 75 departments that offer astronomy degrees. About half (37) of the degree-granting astronomy departments are combined with the physics department at the same university. Only the data for the physics portion of those departments are listed in this roster.

Notations used in this roster:

- m* Department grants a masters as its highest physics degree (N=64).
- p* Department grants a PhD as its highest physics degree (N=188).
- s* This institution also has a separate astronomy department. There are a total of 38 separate astronomy departments.
- c* This is a combined department, offering degrees in both physics and astronomy. Data concerning their astronomy program can be found in the "Roster of Astronomy Departments, 2006" (N=37).
- GRADUATE ONLY Department has no undergraduate program in physics (N=9).
- FIRST YEAR This column includes graduate students who were new to the department in the fall 2007 as well as students who entered the department in the previous winter, spring and summer.
- EXITING MASTERS This column includes masters degrees from both masters-granting and doctoral-granting departments whose students are leaving that department with a masters.
- Data for this field were not provided.

The totals presented in the table below represent all physics departments. This includes data from the responding departments as well as estimated data for the non-responding departments. These estimates were derived from a department's response to the survey in a previous year.

Highest Degree Offered	Fall 2007 Undergraduate Majors		Fall 2007 Graduate Students			2006-07 Physics Degrees		
	Jr	Sr	Total	Foreign	First Year	Bachelors	Exiting Masters	PhD
